PROFILE

MERN Stack / Frontend Developer with professional experience developing and maintaining responsive websites using HTML5, CSS3, JavaScript, Bootstrap and WordPress. Completed a full-stack Finance Tracker using React.js, Redux, React Hooks (useState, useEffect, useContext), useNavigate, Node.js, Express.js, MongoDB and Mongoose. Hands-on experience with REST APIs, API integration, JWT authentication, bcrypt, CRUD operations, protected routes, MVC architecture and middleware. Strong focus on responsive UI, user-friendly interfaces and practical full-stack development.

WORK EXPERIENCE

WEB DEVELOPER - ONSITE
OMX Technologies | Oct 2025 - Feb 2026
• Developed and maintained 15+ responsive websites using HTML5, CSS3, JavaScript, Bootstrap and WordPress.
• Customized WordPress themes and integrated plugins based on client requirements and design specifications.
• Implemented responsive UI components and interactive website functionality for desktop and mobile devices.
• Handled deployment through OVI Panel, including domain setup, file management, uploads and live-site updates.
• Managed database configuration and basic server-side tasks while collaborating with clients and teams on revisions.

WEB DEVELOPER INTERN - ONSITE
Ninad Webtech | Mar 2025 - Sept 2025
• Designed and developed responsive WordPress websites with a focus on UI/UX and cross-device compatibility.
• Customized WordPress themes according to client requirements and implemented interactive elements using plugins and custom code.
• Collaborated with clients and teams on revisions, troubleshooting and website improvements.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3
Frontend: React.js, React Hooks (useState, useEffect, useContext), Redux, Bootstrap, Responsive Web Design
Backend: Node.js, Express.js, REST APIs, API Integration, Middleware
Database: MongoDB, Mongoose
Auth & Development: JWT, bcrypt, Authentication, Authorization, Protected Routes, CRUD, MVC Architecture
Tools & CMS: Git, GitHub, Postman, Figma, WordPress, OVI Panel

PROJECTS

FINANCE TRACKER | FULL-STACK MERN APPLICATION | GitHub: github.com/saloni27062000/Finance-Tracker

• Built and completed a full-stack finance management application using React.js, Node.js, Express.js, MongoDB and Mongoose, covering both frontend and backend development.
• Developed responsive React UI using useState, useEffect, useContext and useNavigate for component state, lifecycle handling, shared context and navigation.
• Implemented Redux for centralized frontend state management and integrated frontend components with backend REST APIs.
• Built secure authentication and authorization using JWT and bcrypt with protected routes.
• Developed REST APIs and CRUD operations for users, transactions, categories, bank accounts, investments and friends/family.
• Structured the backend using MVC architecture and middleware for maintainable and modular API development.
